

Notre Dame College School

Specialist High Skills Major Intention Sheet

A Specialist High Skills Major (SHSM) is a Ministry-approved specialized diploma designation. An SHSM allows students the opportunity to customize their high school experience to gain valuable skills and knowledge required in high demand sectors. Students will earn industry-standard certifications, receive job site opportunities and participate in reach ahead experiences, while meeting the requirements for an Ontario Secondary School Diploma.

SHSM is offered in all pathways: university, college, apprenticeship training, workplace and community living. Notre Dame College School offers SHSM programs in the sectors listed below.
